Fred,  
I believe that Gary Newhart of EPA ERT recommended adding that parameter.

I have added the other Tier IV parameters we discussed today on the analytical request. We will formally submit the revised reqt after the OSC approves it.

Gene,

I will pass this on to the lab to confer in light of the discussion on the call today. Also, how critical is Radon-222? I spoke with the contact at NAREL and have questions.

---

Fred,  
For review. This is the draft analytical services request which includes the parameters to be done by OASQA. I was waiting until we finalized the list of parameters to submit it. I received an e-mail from Stevie that the EPA Region 9 lab would be doing the DRO/GRO/Dissolved gases by RSK-175. I can add those to this draft or submit a separate request for the parameters to be done by Region 9.
